Practitioner being beaten publicly in Tiananmen

Ms. Zhao Xin, a 32-year-old Economics Lecturer at the Beijing Technical and Business University, was arrested on June 19, 2000, for doing Falun Gong exercises in her local park.

This picture was taken after she had been detained for three days, when police sent her to the hospital with lacerations on her head and back. She had been beaten so badly by the police that three vertebrae in her spine were crushed, rendering her unable to speak, breathe, or move from the neck down. She remained in this condition for 6 months, before dying on December 11, 2000.
