Ms. Wang Mingrong and Others Died from Abuse in Xinjin Brainwashing Center

Ms. Wang Mingrong

(Clearwisdom.net) Falun Gong practitioner Ms. Wang Mingrong from Chengdu City was arrested and taken to the Xinjin Brainwashing Center around September 7, 2011. (The brainwashing center is officially called the “Chengdu City Law Education Center.”) Ms. Wang died from severe physical abuse and mistreatment around September 17, less than ten days after being incarcerated. According to a witness, she was subjected to beatings and her body was covered in bruises.

Ms. Wang Mingrong, 53, lived in Chengdu City, Sichuan Province. She was a head nurse at Kangfu Hospital in Chengdu. She was known because of her superb work ethic, but was fired from her job in 2001 after the persecution of Falun Gong began. Around September 7, 2011, officers from the Jinqian Street Affairs Office, the Jinqian Police Station, and the Jinniu District 610 Office (an agency instituted specifically to oversee and carry out the persecution of Falun Gong) took Ms. Wang to the Xinjin Brainwashing Center. According to an insider, she went on a hunger strike to protest the persecution. She was then force-fed and violently beaten. After Ms. Wang died, Jinniu District 610 Office agents exerted great pressure on Ms. Wang's family to not reveal any information about her death.

Mr. Xie Deqing was a retired engineer from the Chengdu City Mine Detection Institute. He was unlawfully arrested on April 29, 2009, and taken to the Xinjin Brainwashing Center. He died within 30 days of being imprisoned there. Not long before his death, Mr. Xie told his family about how the brainwashing center authorities took him to the hospital, supposedly for a physical exam. He was instead injected with many unknown drugs, after which he could not eat or drink for almost two weeks.

Abuse of Falun Gong practitioners continues. On the afternoon of September 23, 2011, Mr. Lan Qidi was arrested by the Jinjiang District Shahebao 610 Office when he was distributing Falun Dafa informational materials around the Wuguqiao bus station. He was abused in the Xinjin Brainwashing Center that same day. On October 9, 2011, the Xinjin County 610 Office arrested elderly practitioner Ms. Pan Tingying and took her directly to the Xinjin Brainwashing Center. On October 10, 2011, the Qinglong Community 610 Office arrested Ms. Chen Guozhen at her home, and took her to the Xinjin Brainwashing Center.

According to incomplete statistics, since 2003, more than 1,000 Falun Gong practitioners have been held in the Xinjin Brainwashing Center, where they were subjected to physical and mental torture. They have been injected with drugs that damage the central nervous system, and their food and drinking water are often laced with unknown substances. Due to severe abuse, many have experienced nervous breakdowns, developed mental impairment, become physically disabled, and developed various illnesses. Practitioners who died in the brainwashing center include Ms. Deng Shufen, Ms. Li Xiaowen, Ms. Wang Mingrong, Mr. Xie Deqing, and Ms. Liu Shenglu.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Kulmbach, Germany: Exposing the Persecution in China

(Clearwisdom.net) On October 29, 2011, German Falun Gong practitioners held activities in downtown Kulmbach, exposing the 12-year persecution of Falun Gong in China. They set up display boards exposing the facts about the Chinese Communist Party's harvesting organs from Falun Gong practitioners for profit. Many passersby stopped to ask questions and view the materials. Many signed the petition to condemn the persecution.

People view materials about Falun Gong and the persecution in China and sign the petition to support Falun Gong

In the morning, a father signed the petition with his son. Later that afternoon, he came back with his wife. They carefully read all the display boards together. Many people asked for more materials, saying that they would take the information to their friends.

Former U.N. Special Rapporteur: Allegation of Organ Harvesting in China Credible

Professor Manfred Nowak speaks at National Taiwan University

(Clearwisdom.net) "It is credible! It has been checked and in particular there is a statistical link to the repression against Falun Gong on the one hand, and the dramatic rise in organ transplantation. At the same time, we don't really know where all those organs are coming from." Professor Manfred Nowak of Ludwig Boltzmann Institute, former U.N. Special Rapporteur on Torture, gave a speech titled, "The Right to Stop Torture – Viewpoint and Experience of a Former U.N. Special Rapporteur" at National Taiwan University on November 8, 2011. He said that China was the most difficult country in which to investigate torture.

Nowak served as the U.N. Special Rapporteur on Torture from 2004 to 2010. Since August 2006, Nowak and Asma Jahangir, U.N. Special Rapporteur on Freedom of Religion or Belief, have submitted to the Committee Against Torture numerous testimonies about the Chinese Communist Party (CCP) harvesting organs from living Falun Gong practitioners, and requested information from the CCP regarding the source of organs for transplant. He said, "It is the obligation of the government to provide any results, but we have never received any kind of [information]."

In Nowak's report to the United Nations in 2006, two thirds of the torture cases by the CCP were of Falun Gong practitioners. The 2007 report listed many Chinese organ transplantation centers and detention centers alleged to be involved with harvesting organs from living Falun Gong practitioners.

The Most Remarkable Experiences on My Path of Cultivation

(Clearwisdom.net) I started practicing Dafa in 1997. When I decided to seriously practice Falun Dafa, my body was purified. One night, I had diarrhea throughout the night until dawn. I thought that because of having to go to the bathroom all night and losing sleep, I would probably look pale and certainly wouldn't be able to go to work the next day. However, after finishing getting ready that morning, I felt just opposite of what I had imagined. In fact, I had never felt better! Instantly I understood that my body had been purified.

While doing the Falun Standing Stance exercise for the first time, I felt a great energy, which cured the pain in my arms stemming from a cervical nerve problem. After practicing Dafa for less than six months, the cervical disorder, as well as rhinitis, prostatitis, and gastroenteritis, which had plagued me for a long time, disappeared. When I walked I felt as if I was floating. I no longer had difficulty climbing stairs, and I felt like someone was pushing me when riding my bike. I thanked Dafa from the bottom of my heart. From then on I made up my mind to be a steadfast practitioner, and to follow the teachings of Dafa to be a good person based on the standard of Truthfulness-Compassion-Forbearance. I often tell others about the beauty of Falun Dafa.
