### 62-Year-Old Falun Gong Practitioner Dies after One Year in a Forced Labor Camp

**Ms. Jiang Jingping**

(Clearwisdom.net) Ms. Jiang Jingping was held for one year in a labor camp in Harbin City simply because she practiced Falun Gong. There, the 62-year-old retired textile worker was subjected to brutal brainwashing tactics, torture, starvation and hard labor. Ms. Jiang died on November 30, 2011, just one month after her release.

Prior to practicing Falun Gong, Ms. Jiang suffered from many illnesses, including arthritis, ulcers, and kidney disease. After she became a Falun Gong practitioner in 1995, she experienced the joy of being illness free. However, after years of persecution, including three years in a brutal labor camp, Ms. Jiang's health had deteriorated. On November 4, 2010, Ms. Jiang was stopped by police near the Jiadong Police Station, and her handbag was confiscated. She was detained for 20 days. On November 24, 2010, Ms. Jiang was taken by guards from the detention center and brought to Heilongjiang Province Women's Drug Rehabilitation Center – actually a forced labor camp used to persecute Falun Gong practitioners. The guards bribed the labor camp doctor into accepting Ms. Jiang, who was already very ill by then.

**Torture re-enactment: Sitting on a small stool for a prolonged period.**

The day after she entered the center, Ms. Jiang was forced to sign statements that slandered Falun Gong. She was then put in solitary confinement for a month. Ms. Jiang had to get up at 5 a.m. and sit on a small, sharp-edged stool (a device of torture) for hours. This extremely painful torture left her buttocks imprinted with two dark lines. Each day she was forced to watch slanderous videos that attacked Falun Dafa, then made to write slanderous articles. She was given only 15 minutes for each meal. She could not finish eating and was constantly hungry. Under the tremendous physical and mental strain, Ms. Jiang's illnesses returned, and a tumor grew on her neck.

During nine months of intensive brainwashing, each morning Ms. Jiang was made to do one hour of forced labor. Sometimes she had to carry heavy boxes up and down stairs. Her feet were swollen, and she became incontinent. The center took her to see a doctor twice and charged her for the visits, but she was never told the diagnosis, nor was she given medical treatment. During the last three months of her term, Ms. Jiang was assigned to regular forced labor, sealing and carrying heavy boxes.

Ms. Jiang was allowed to take a shower only three times during the entire year of incarceration. When she was released on October 31, 2011, she was exhausted, emaciated, she could not eat, and her whole body was swollen. She was incontinent, and had difficulty breathing. Unable to recover, Jiang Jingping died on the morning of November 30, 2011.

### Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

## Engineer Mr. Lu Haixing Killed in Jinzhong Prison

**(Clearwisdom.net)** Around 3:30 a.m. on January 10, 2012, Falun Gong practitioner Mr. Lu Haixing died in Jinzhong Prison under suspicious circumstances. He was 45.

Mr. Lu was born on July 6, 1966. He was an engineer for the Shanxi Province No. 1 Construction Company. On the evening of July 25, 2010, Houma City police officers arrested Mr. Lu. Mr. Lu was tried in November and December of 2010 without a verdict. In January 2011, at the detention center, Lu was notified that he had been sentenced to five years in prison.

Lu Haixing was healthy and had no illness before the arrest. When his family inquired about the cause of his death, the prison authorities replied, "sudden coagulation of blood in the brain." The surveillance video showed that Mr. Lu's situation became abnormal at around 3:15 a.m. When the prison doctor arrived at 4:20 a.m., Mr. Lu had stopped breathing. According to practitioners who have been incarcerated in Jinzhong Prison, the prison authorities designate hardened inmates to monitor and torture Falun Gong practitioners in an attempt to force them to give up their belief. Practitioners have been subjected to brainwashing, sleep deprivation, forced standing and sitting for prolonged periods, beatings, shackling and handcuffing. Some practitioners were forced to sit straight for as long as eight months. At least four Falun Gong practitioners have been killed from torture and abuse at Jinzhong Prison.

## India: Two-Day Program to Introduce Falun Dafa to Primary School Teachers

**(Clearwisdom.net)** After Falun Dafa was introduced to the Commissioner of Public Instruction of Karnataka, he expressed a keen interest in introducing Falun Dafa to all primary school teachers in the state of Karnataka. The director of the Department of State Education and Research Training and the principal and deputy director of public instruction in Bangalore organized a pilot program on January 17 and 18, 2012, to introduce Falun Dafa to the coordinators of the government schoolteachers. It was attended by 70 teachers from the rural districts of Karnataka.

The practice and principles of Falun Dafa were first introduced to the program participants, followed by practitioners sharing their personal experiences. The five sets of exercises were then taught to the entire group. The next day, individual teaching of the exercises was done in smaller groups. A video was shown that exposed the ongoing persecution of Dafa practitioners in China. This was followed by a group reading of *Zhuan Falun*, the book containing the principal teachings of Falun Dafa. The feedback received from the participants afterwards was very positive, with many expressing a desire to introduce Dafa in their schools.

## A New Practitioner Witnesses the Power of Dafa

**(Clearwisdom.net)** I am a housewife in my fifties. Before I practiced Falun Dafa, I had high blood pressure, varicose veins, a cerebral hemorrhage, cervical spondylosis and insomnia. My suffering was such that each day seemed like a lifetime for me. I spent all my money to try to cure my illnesses, and I even borrowed money from others. However, nothing seemed to work. It was very hard to talk and I could only use gestures to communicate with my family. My legs and arms hurt, but the rest of my body was numb.

A Dafa practitioner recommended that I try Falun Dafa and helped me to start practicing. I experienced great changes after several days of practicing. My mind became clear, and my hearing improved. I felt relaxed and had more energy. I could talk normally, slept well and regained the feeling in my body.

Dafa cleansed my body of illness and I became a healthy person. Falun Dafa offered me a new life. I am sure that I will continue to cultivate diligently.
